alexpmaule@gmail.com · www.linkedin.com/in/alexandre-pawlicki-maule

I am a problem-solver, I enjoy fixing errors in a timely and accurate fashion and to help maintain things working properly. I am highly coachable and eager to prove my value and learn with those more experienced to be able to tackle larger and more complex problems.

EXPERIENCE

FEBRUARY 2021 – PRESENT

SR. SWQ OPERATIONS ASSOCIATE, ARTECH

Finding and fixing root causes of issues and problems.

Mentor to more than a dozen junior associates and helping others with new procedures.

Responsible for task assignments for a team of more than 10 people.

Understanding and trying to fix issues before asking for help.

Great experience with Excel, data entry, data cleaning, formulas and functions.

Work with a team to verify sensors calibration for autonomous cars.

EDUCATION

DECEMBER 2022 – PRESENT

DATA ANALYTICS BOOT CAMP, MICHIGAN STATE UNIVERSITY

Learning Intermediate Excel, Python, JavaScript, HTML5, PostgreSQL programming.

Hands-On experience with data visualization and data analytics projects.

DECEMBER 2019

MATHEMATICS AND ECONOMICS B.S., EASTERN MICHIGAN UNIVERSITY – GPA 3.63

Programming classes in Java. Econometrics with R and RStudio.

Logical thinking and problem-solving methods.

Learned about statistics, arrays, and algorithms.

SKILLS

- Java, SQL, R, Python, VBA, and Visual Studio.
- Time management and prioritizing.
- English, Portuguese, and Polish.
- Learn and adopt fast to changes.
- Ability to stay organized and focused.
- Attention to details.

ACTIVITIES

Took great number of responsibilities among my peers in my current roll. Through fast adaptation to changes and reliability, I became the person responsible for assigning tasks and to go for questions. I'm able to work independently without supervision and take the initiative to ask for more assignments.
